

Seeds by Design, the name says it all...we are the first production company in the US to offer such a diverse line of vegetable and herb seeds from heirlooms to hybrids, suited for the commercial grower to the home garden trade. We offer more heirloom varieties than any other production company as well as our own line of hybrids, including peppers, tomatoes and vine seeds.

FIRST PICK VEGETABLES

Cabbage Red Express

Fifty three days to maturity, very early to head. The first super early open pollinated red cabbage to be released in years. Small plant frame, dense, solid, oval heads, dark purple red color, two to three pounds. Bred for Canada & Northern US. Red Express is very adaptable to many locations.

Tomato Early Choice F1

Wow! 55 days to very early 5 ounce fruit. Early Choice is a bright red globe shaped tomato with excellent flavor. Every grower or gardener needs an early maturing variety like this. One of the first ripe tomatoes in your garden with great flavor is a real find. Plants are indeterminate and have potato leaves.

Pepper Chablis F1

Early maturity and adaptable as a garden or container plant. Fruit are white, yellow, orange, to scarlet red. Bell shaped with thick walls and good weight. TMV & BST resistant. Fruit measure 4 x 3 inches. Excellent served with cheese, compare to Gypsy.

Eggplant White Star F1

After many requests we created this white hybrid eggplant. White Star can be either used as a white baby eggplant or grown to full maturity for a lovely tear drop shaped glossy white fruit. Very early maturing, excellent for Northern climates.

Crystal White Pickle F1

Very early novelty cucumber, ivory white fruits even when mature, cylindrical with rounded ends. Two inch pickles have extremely good eating quality, ideal for pickles or slicing. Highly productive even in hot weather, crisp firm flesh with mild flavor, vigorous vines.

Pepper Cubanella F1

Sixty eight days to maturity. Two inches in diameter, three lobed, tapers to a blunt end. Eleven inch slightly irregular shaped fruit have medium waxy flesh, pale yellow to scarlet red. The distinct flavor is excellent for grilling or frying, ever bearing plants produce over a very long season.

Pumpkin Early Harvest F1

Early Harvest is popular with both home gardeners and commercial growers. This hybrid has a precocious gene that causes the pumpkin to begin with a yellow color and turn golden orange at maturity. This unique gene along with Early Harvest F1's early maturity can allow growers to catch up after adverse planting conditions.

Tomato Early Doll F1

Fifty five days to maturity. A very early four to five ounce fruit. Early Doll F1 is a bright red globe shaped tomato with excellent flavor. Every grower or gardener wants an early maturing variety like this one. Compare to Early Girl in your garden.

Growers on the cutting edge of today's market trends ask for Seeds by Design when looking for Organic, Heirloom or Hybrid vegetable seeds.
