

SEEDS BY DESIGN

Seeds by Design, the name says it all... we are the first production company in the US to offer such a diverse line of vegetable and herb seeds from heirlooms to hybrids, suited for the commercial grower to the home garden trade. We offer more heirloom varieties than any other production company as well as our own line of hybrids, including peppers, tomatoes and vine seeds.

HEALTH PLUS VEGETABLES

Lettuce Silvia

Tomato Caro Rich

Broccoli Romanesco

Squash Golden Health F1

Large flat broad leaves are sweet with and have a buttery texture. The beautiful deep red leaves are colored from emergence, quick growing, very heat resistant if kept watered, cold resistant also. Silvia is excellent for year round production of cut and come again salad greens in your garden or a container

Eighty five days to maturity from transplant. Good sized deep golden globe fruits on semi indeterminate vines. Weighs 6 to 8 oz. on average, and has multiple disease resistance. Like most orange tomatoes, the fruit are firm and very flavorful. The bright orange color, high lycopene levels and low acid flavor make his a healthy choice for anyone's garden.

This beautiful Italian broccoli crossed with cauliflower produces a bright green head that is as tasty as attractive. Since the heads are colored green they contain higher levels of chlorophyll. That equals more nutrients and higher health benefits.

Ninety days to maturity, hard moderately warty red orange rind with point at blossom end, ten to twelve inches long and eight inches in diameter. Fruit weigh about 10 pounds, solid thick dry fine grained orange yellow flesh, full sweet flavor, excellent keeper, can or freeze, popular with home gardeners and commercial growers. Golden Health is an excellent source of vitamins, minerals and anti oxidants.

Carrot Atomic Red

Pepper Merlot F1

Swiss Chard Oriole/Flamingo

Watermelon Imperial F1

65 days to maturity. 11"x 1.5" long tapered bright red roots. High in Lycopene, a precursor to beta carotene, said to be a preventative of several types of cancer. Crispy roots that taste wonderful cooked, color tends to be more intense when cooked, slightly washed out when raw.

68 days, Early and very attractive deep purple to red blocky bell measuring 5 x 4 inches. Very sweet peppers with excellent high yields. Highly adaptable to many growing regions, sets in cool weather as well as hot humid conditions. Merlot has high quality thick walls, TMV resistant and BST tolerant. Purple vegetables contain the highest levels of anthocyanin.

30 days baby, 60 days full maturity. Oriole Imperial is a hybrid diploid watermelon has beautiful green leaves with orange stem on with an excellent yield of 18-21 lb. contrast, also used in ornamental edible fruit. The deep red flesh is very sweet landscaping. Flamingo is a dark green and firm. The rind is medium green leaved vivid pink stemmed chard which is with dark stripes. Classic Crimson slow to bold and quite lovely in bunches. Sweet type watermelon variety. Did Swiss chard is known for being very high in you know? Watermelon contains more

vitamins and iron. Lycopene than tomatoes.

Growers on the cutting edge of today's market trends ask for Seeds by Design when looking for Organic, Heirloom or Hybrid vegetable seeds.
