

Seeds by Design, the name says it all...we are the first production company in the US to offer such a diverse line of vegetable and herb seeds from heirlooms to hybrids, suited for the commercial grower to the home garden trade. We offer more heirloom varieties than any other production company as well as our own line of hybrids, including peppers, tomatoes and vine seeds.

KALE KRAZE

Kale Lacinato

This primitive but attractive open kale can be traced back to eighteenth century Tuscany. This Italian region is known for their flavorful vegetables. The ten inch strap shaped leaves are dark grey blue green and slightly puckered. Excellent winter variety in containers as well as beds, flavor and nutritional value is enhanced with frost and cold weather.

Kale Scarlet

A dark red almost purple, 26 to 32 inch plant with large and sturdy leaves that are heavily curled. Is beautiful planted in garden beds with ornamentals, as pictured here. Can also be used for bunching or baby leaf. Very sweet and succulent leaves at any stage.

Kale Red Ursa

Extra frilly version of Red Russian kale, leaves are brighter green, stem and petioles are a dark red/purple color. Very slow to bolt and has thick high yielding leaves. Lovely used for bunching and baby kale production.

Kale Black Magic

Improved selection of Lacinato or Dinosaur kale with wider leaves and consistent dark green color. Very uniform and very slow to bolt, stands well in production fields for multiple cuttings. Very attractive spring or fall bedding plant.

Kale White Russian

Dark green oak leaf cut leaves, kale is richer in vitamins and minerals than other greens. White stems, give way to tender and sweet rich dark green kale when cooked, also excellent raw in salads. Very disease resistant in both bunching and baby leaf productions.

Kale Red Russian

50 days to maturity. Dark green oak leaf cut leaves, red and purple hues intensify after fall frosts, give way to tender and sweet rich dark green kale when cooked, also good raw, disease resistant like its white sister. Grow with fall and winter annuals for a colorful winter garden.

Kale Blue Curled Scotch

Very slow bolting Scotch type, finely curled blue green leaves, low growing, 16-20 inches tall and up to 24 inch in diameter, short stem, hardy, especially tender and sweet after light frost, does not yellow from frost or heat, hardy, sow early spring or July, non-heading.

Kale Portuguese

This kale variety may be the hardest of the cabbage kin. It excels in cold weather, tasting best after frost has kissed the tender, rounded succulent leaves, and making moderate growth whenever there is even a slight warm spell.

Growers on the cutting edge of today's market trends ask for **Seeds by Design** when looking for **Organic, Heirloom or Hybrid** vegetable seeds.
