

**Seeds by Design**, the name says it all...we are the first production company in the US to offer such a diverse line of vegetable and herb seeds from heirlooms to hybrids, suited for the commercial grower to the home garden trade. We offer more heirloom varieties than any other production company as well as our own line of hybrids, including peppers, tomatoes and vine seeds.

## Patio Vegetables

**Containers Choice F1**

Wow! 55 days to very early 5 ounce fruit. 'Containers Choice' is a bright red globe shaped tomato with excellent flavor. Every grower or gardener needs an early maturing patio variety like this one. One of the first ripe tomatoes in your pots with true flavor is a real find.

**Pepper Chablis F1**

Early maturity and adaptable in the garden or a container plant. Fruits are multi colored: white, yellow, orange, and scarlet red. Bell shaped fruit with thick walls and good weight. TMV & BST resistant. Fruit measure 4 x 3 inches. Excellent served with cheese, compare to 'Gypsy'.

**Lettuce Sandy**

July 2014 National AAS Winning Lettuce 'Sandy' has exceptional disease and bolt resistance. Can be sown in either Spring or Fall seasons. Lovely, dark green oakleaf lettuce with a multitude of extra frilly leaves. Grow it in a salad blend or just buy it self. Your salads will be a winner also.

**Pumpkin Wee be Little**

This 1999 All American Selection winner, matures in about ninety-five days. Fruit are small almost round, three inch by three inch, weighing one pound. 'Wee Be Little' is well suited for baby carving pumpkins or painting. Also has very tasty flesh when cooked.

**Saladmore Bush F1**

Saladmore Bush F1 boasts a bush-type growth habit making this AAS Winner perfect for growing in container gardens. Anyone looking for a good slicing type cucumber with dark green skin and long straight fruits will enjoy this beauty. Superior taste and texture. Disease resistance that proved to be especially valuable in warmer climates where comparison varieties easily succumbed to late season diseases.

**Pea Tom Thumb**

Very early maturing in just 44 days. Exceptionally sweet, flat 1.5 to 2 inch pods. These bright green sugar peas can be grown in a pot or any garden space. This 6-8 inch bush pea can be sown in either the Spring or Fall. Imagine snow peas on your patio in just 40 to 45 days. The heirloom variety has been planted for almost 100 years since 1920.

**White Star F1**

After many requests we created this white hybrid eggplant. 'White Star' can be either used as a white baby eggplant or grown to full maturity for a lovely tear drop shaped glossy white fruit. Very early maturing, excellent for Northern climates.

**Patio Fire and Ice**

Grow a rainbow of colored peppers on just one plant. In 70 days produce super sweet, yellow, orange, scarlet and deep red colored pepper. These compact plants offer multiple disease resistance for maximum garden performance. Plant with other dwarf annuals like lobelia to complete your display.

**Growers on the cutting edge of today's market trends ask for Seeds by Design when looking for Organic, Heirloom or Hybrid vegetable seeds.**
