

Seeds by Design, the name says it all...we are the first production company in the US to offer such a diverse line of vegetable and herb seeds from heirlooms to hybrids, suited for the commercial grower to the home garden trade. We offer more heirloom varieties than any other production company as well as our own line of hybrids, including peppers, tomatoes and vine seeds.

Summer Melons & Watermelons

Harvest Moon F1

The first ever hybrid, triploid seedless watermelon to win a coveted AAS Award! Similar to the popular heirloom variety, 'Moon and Stars' Harvest Moon is an improvement that features healthy, shorter vines that produce medium-sized fruits and sweet, crisp pinkish-red flesh. Harvest Moon retains the familiar dark green rind with yellow dots, but is seedless, early to ripen, higher yielding and better tasting.

Treasure Chest F1

Only 80 days to maturity from transplanting. A beautiful yellow triploid seedless with very sweet, lemon yellow flesh. The medium thick rind color is medium green with thick dark stripes. These completely round 6-9 pound fruit make perfect icebox watermelon

Watermelon Golden Midget

Incredible sixty days to maturity. This thin light green rind turns a golden yellow at maturity. Rich red flesh is sweet and crisp. Plants are compact and can be grown in small gardens and large containers. The unique mixture of gold rinds and red flesh make this a very attractive seven to eight inch seeded melon.

Watermelon Baby Doll F1

Early maturing in only 70 days. A diploid or seeded yellow fleshed hybrid, 6-10 pound fruits are perfect for the ice box or cooler. The green rind with small dark stripes creates a perfect summer package, compare with 'Yellow Doll' or 'Yellow Baby'.

Melon Scrumptious F1

This taste wonder is our version of the famous Ambrosia. The large oval fruit have fine netting and no sutures. The tender flesh is pale orange with a bright salmon blush at the seed cavity. Vigorous vine produce many tasty treats. 'Scrumptious' is a taste test winner all over the country.

Melon Aspire F1

French breakfast melons are a true gift from France. These personal size melons are extra sweet and extremely early. Remember that this type of melon can not be shipped to stores but are best enjoyed by home and market gardeners. The vines are semi compact only 28 to 30 inches long and can fit in any garden even a large container.

Melon Fabulous F1

Vigorous, disease resistant vines produce perfectly oval pale green honeydew fruit with bright green flesh. These early maturing beauties can be staked to save space in your garden. The firm, sweet, green flesh has a very high sugar content and holds well.

Melon Whimsy F1

A Spanish Piel de Sapo (skin of the toad) melon that is a pretty on the outside as the inside. The crisp white flesh pairs well with cheese and a sweet dessert wine for a perfect Mediterranean after dinner treat. Vines are very vigorous and has wonderful disease resistance.

Growers on the cutting edge of today's market trends ask for Seeds by Design when looking for Organic, Heirloom or Hybrid vegetable seeds.
