

Pumpkin Super Moon F1
AAS 2016 Edible Winner
Regional Winner: Great Lakes and Southeast

Love the look of white pumpkins for your fall holiday décor? Then you will love our first-ever white pumpkin AAS Regional Winner Super Moon F1. Our judges loved the nice, eye-appealing ghostly white coloration on the large, blemish-free round pumpkins. Grown for their size, up to 50 lbs, and their clean white color, these hardy plants are known for their early fruit development and vigorous growth. Their stems are tough, hardy, disease-resistant and unstoppable! When done decorating with these beauties, consider trying the yellow flesh for roasting or in your fall harvest soups.

Bred by Seeds By Design Inc.

All-America Selections® was founded in 1932 and continues as the oldest independent testing organization in North America. Every year, new, never-before-sold in North America varieties are trialed in our Trial Grounds and professional horticulturists determine which varieties will be deemed winners based on their garden performance. AAS relies upon a public relations program to inform gardeners about AAS Winners that are announced three times each year.
