

Tomato Fire Fly F1
AAS 2019 Edible Winner
National Winner

Similar to the Goldilocks story, this adorable newcomer is not as small as a currant tomato and not as large as a cherry tomato, but is a “just right” in-between size. The fruits produced are super sweet pale white to pale yellow round fruits less than 1 inch in size and weigh about 1/2 oz. Delicate, translucent skins offer a mild acid flavor that enhances the sweet taste. They’re small juicy fruits exploding with flavor, perfect for snacking and in salads. Indeterminate plants must be staked or caged as they grow upward to 5-6 feet and have good disease resistance.

All-America Selections® was founded in 1932 and continues as the oldest independent testing organization in North America. Every year, new, never-before-sold in North America varieties are trialed in our Trial Grounds and professional horticulturists determine which varieties will be deemed winners based on their garden performance. AAS relies upon a public relations program to inform gardeners about AAS Winners that are announced three times each year.
