

Seeds by Design, the name says it all... we are the first production company in the US to offer such a diverse line of vegetable and herb seeds from heirlooms to hybrids, suited for the commercial grower to the home garden trade. We offer more heirloom varieties than any other production company as well as our own line of hybrids, including peppers, tomatoes and vine seeds.

UNIQUE SALAD GREENS

Mustard Braising Greens

A growing trend and market which uses a blend of specialty mustard varieties and arugula. You can market our custom braising mix or create your own specific blend for your market or growing region. Mustard braising greens are also used for multiple cut and come again picking in home gardens. This very healthy alternative to lettuce mixes is becoming very popular.

Chicory Culinary Blend

What better way to experience the wonderful world of Italian chicories. In this mixture we have created a colorful blend of green, white red and purple. This collection of Italian varieties provides the crisp flavor for much of the year. Any chef or home cook will love to grow and prepare this product.

Lettuce Ashley

28 days baby, 50 days full maturity. Deepest wine-red oakleaf we offer. Highly rated color at the baby leaf stage. Clearly darker red colored than other red leaf varieties. At full maturity the loose leaf head is fuller and slightly more compact.

Gourmet Salad Garden

These 5 lettuce varieties are highly praised for flavor, and custom blended to create a colorful mixture with numerous bright colors and leaf shapes. Recommended by market gardeners and local chefs from our region.

Lettuce Mesclun Mix

A blend of lettuce and herbs grown together are referred to as the French term mesclun. We have selected this blend of varieties for their ease in growing from seed. Plant this classic mixture in your kitchen garden or containers.

All Season Cutting Sampler

Usually 4 to 5 varieties are blended to create colorful mixtures with varying colors and leaf types. This garden blend is selected for heat and drought tolerance. All Season Sampler is an excellent choice for sowing in containers and gardens throughout the year.

Lettuce Micro Mini Greens

A colorful mixture of red and green leaf lettuce varieties creates these lovely mini lettuces. They are not considered a sprout and not true baby leaf lettuce either. These delicious mini greens are somewhere in between. Grow some today in about 15 days.

Herb Watercress Shoots

One of the mildest and tender shoots or sprouts. These green and white beauties are prized for their mild, fresh and juicy flavor. They do not store well but are worth the effort when picked and eaten fresh.
